*Headache and migraine.* Onder redactie van L. A. H. Hogenhuis en T. J. Steiner. 92 bl., fig., tabellen. Bunge, Utrecht 1992. ISBN 90-6348-057-1. Prijs: ingen. f 37,50.

Dit boekje bevat de 14 voordrachten gehouden op de eerste meeting van de Engels-Nederlandse Migraine Vereniging in mei 1991; ze refereren grotendeels aan reeds gepubliceerd werk. Men kan er nuttige informatie vinden over de farmacologie, de werking en klinische toepasbaarheid van het nieuwe anti-migrainemiddel sumatriptan, een classificatie van 5-hydroxytryptaminereceptoren, het nut van de visuele 'evoked response' bij de diagnose, psychiatrische stoornissen en stemmingsveranderingen, migraine en sport, migraine bij kinderen en aanwijzingen dat weekendmigraine berust op cafeïne-onttrekking. Sommige bijdragen zijn wel erg beknopt. Het geheel geeft een aardig overzicht van de actuele problemen van migrainebehandeling, hoewel de etiologie verre van opgehelderd is.

## Buxton 2008

The Buxton conference in 2008 took place in "the Cultural Capital of the Peak District, Derbyshire. Dons Coleston-Shields organized this conference superbly in the Dome, once a magnificent 18th Century stable block built by the 5th Duke of Devonshire to house the horses and servants of the guests of the Crescent Hotels, what is now the new campus of the University of Derby.

Melancholy Palace

- Mister President of the ADMA, dear colleagues and friends:

On the occasion of the 25th anniversary of the ADMA, I am profoundly happy to see the society that Dr. Tim Steiner and I jointly founded, is now celebrating a quarter century of productive efforts and collaborative research. Unfortunately, my health does not permit me to join you in Valencia to celebrate this great milestone. I wish and fervently hope that you will maintain the course of this important tradition of friendship and sincerity that we built together. I wish a long life to the Anglo Dutch Migraine Association!

Sincerely, Leon Hogenhuis
